

## WARNING ENGINE SLING

Any piece of equipment can be dangerous if not operated properly. **YOU** are responsible for the safe operation of this equipment. The operator must carefully read and follow any warnings, safety signs and instructions provided with or located on the equipment. Do not remove, defeat, deface or render inoperable any of the safety devices or warnings on this equipment. If any safety devices or warnings have been removed, defeated, defaced, or rendered inoperable, **DO NOT USE THIS EQUIPMENT!!!**

 **WARNING:** This product can expose you to chemicals including naphthalene and chromium from petroleum products which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to [www.P65warnings.ca.gov](http://www.P65warnings.ca.gov)

 **WARNING:** This product can expose you to chemicals including Chromium from steel products, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to [www.P65warnings.ca.gov](http://www.P65warnings.ca.gov)

**DANGER:** This equipment has and creates multiple pinch points that can cause dismemberment or death. Keep hands, feet and all other body parts clear at all times.

Warning metal conducts electricity. Do Not use this engine sling where it may come into contact with power lines or other electric circuits. Failure to comply to this warning will result in serious personal injury or death. Keep appropriate distances from High Voltage lines. Never use the engine sling as a ground for welding.

The ideal way to lift and/or maneuver your engine project is with this heavy-duty lifting chain commonly referred to as an “Engine Sling”. Lift a bare engine block or partially assembled engine with ease when combining an engine hoist with this engine sling. This heat-treated chain has convenient bolt mounting tabs and a slip free link locking lift bracket that can be adjusted to balance or to offset the load.

Always make sure your load is properly secured, and balanced before lifting, lowering, or moving.

If the person receiving this handout will not be the user of the equipment, forward these instructions to the operator. If there is any doubt as to the operation or safety of the equipment, **DO NOT USE!!! CALL A TOOL SHED IMMEDIATELY!!! FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN INJURY OR DEATH**
