

## **WARNING WALLPAPER PERFORATOR TOOL**

Any piece of equipment can be dangerous if not operated properly. **YOU** are responsible for the safe operation of this equipment. The operator must carefully read and follow any warnings, safety signs and instructions provided with or located on the equipment. Do not remove, defeat, deface or render inoperable any of the safety devices or warnings on this equipment. If any safety devices or warnings have been removed, defeated, defaced, or rendered inoperable, **DO NOT USE THIS EQUIPMENT!!!**

 **WARNING:** This product can expose you to chemicals including Chromium from steel products, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to [www.P65warnings.ca.gov](http://www.P65warnings.ca.gov)

**CAUTION:** The pins are extremely sharp, avoid contact with them at all times.

If your wallpaper has a vinyl coating or is painted, the seal must be broken to allow the steam to penetrate. This perforating tool is designed to puncture the wallpaper, these small holes allow the steam from the wallpaper steamer to loosen the glue that is holding the paper to the wall.

Use the perforating tool to break the seal, by moving it up and down the wall.

**NOTE:** If walls are to be painted, instead of re-wallpapered, extra care needs to be taken when perforating, that too much pressure is not exerted on the tool, so large holes are not put into the wallboard.

If the person receiving this handout will not be the user of the equipment, forward these instructions to the operator. If there is any doubt as to the operation or safety of the equipment, **DO NOT USE!!! CALL A TOOL SHED IMMEDIATELY!!! FAILURE TO FOLLOW THESE INSTRUCTIONS COULD RESULT IN INJURY OR DEATH**
